# A message from Michele

*Before you start looking through our brochure, I'd just like to take the time to say thank you for having us in mind to be your cleaners.*

*We have been in operation for over 8 years and have grown due to the help of our amazing staff and clients alike. It is because of this growth that we have managed to expand from domestic cleaning into commercial cleaning.*

*In this brochure you will get to see a selection of what we offer. If there is something you like the look of but are unsure we can help you can contact us. Our details will be on the back page.*

*I would like to take this opportunity to give you a small insight into our company and the things that you can expect from us.*

*As previously mentioned, we started operating 8 years ago. At that time we only a small handful of staff who were dedicated to making us succeed. We worked out of the conservatory at my home in Stalybridge, where we are still based, and we had friends and family in our heart. We thought of every client as a friend and treated them like family.*

*Over the past 8 years we have grown and we have managed to get out of the house and into a shop located in Stalybridge town centre. Our workforce has grown from a mere handful to nearly 30 members and each and every one of them is just as dedicated as they were the day they started. We have been through rough patches but by sticking together and by our clients sticking by us too, we have come out bigger and better than ever.*

*Thank you for taking your time to read this message and I hope you like what you see on the rest of the pages.*

*Thank you very much and we look forward to hearing from you.*

*Best Regards*

*Michele Manson*

# Types of Commercial Clean

## Office

We understand that offices can be busy places with people coming and going and the phones constantly being used. Due to this we offer cleaning hours outside of your working hours. We like to make it as easy as possible for you to enjoy our services without being disturbed.

## Warehouse/Factory

Factories and warehouses can be a messy place to work because of the machines, packaging and just general, footfall within them. We understand they can be busy and dangerous places to work. because of this we adhere to any health and safety procedures you have in place and will also work around times that suit you

## Show Homes

Over the past few years we have expanded our brand and have started cleaning show homes for a couple of large housing firms. This requires us to travel some distance but it is something that we are willing to do. If you have a big inspection coming up we can help, if a house has just been built, we can help. There is no job too big or small that we wont do our best at.

## Other

Not only do we the traditional types of commercial buildings such as offices and warehouses, but we also are equipped to clean areas such as schools and nursueries, surgeries for doctors/dentists etc and a number of specific businesses that aren't generally classified under a title.

# Complete Packages Cleaning

## GENERAL CLEAN

This is the smallest package we offer. It ranges from 2 to 4 hours depending on the size of your property and what your requirements are.

Included is:

- Thorough clean of your restroom(s)
- Thorough clean of your kitchen/staffroom
- Polish of any office furniture
- Hoover throughout
- Mop throughout

These can be on a rotaed basis depending on the size of the property and how often you require us or can be done all together on one day.

## DEEP CLEAN

A deep clean can last from a few hours or can range over a few days but this can vary on what you're requirements are. We do like to get a job done as quickly as possible for your convenience as well as our own which means the bigger the job the more people we will send rather than working over more days. However, this will depend on the size of the job.

Included in a deep clean is:

- Thorough clean of washroom(s)/restrooms (including tiles/pipes etc)
- Thorough clean of Kitchen/Staffroom (may include inside fridge and/or cupboards/drawers)
- Polish of all office areas including furniture and woodwork
- Any other woodwork cleaned in areas such as corridors
- Clean of any work spaces (in factores/warehouses etc - where possible)
- Hoover throughout
- Mop throughout

# Complete **SPARKLE CLEANS** Cleaning

**If a new property is already clean but you want that extra special gleam and to make sure every nook and cranny has been cleaned then this is the clean you want. We can make something that's clean, sparkle.**

## **POST BUILDERS CLEANS**

**If a property has just been built and the builders have left a mess inside or if there is a lot of dust. We come in after the builders have left to give it that new home look.**

Dean Hindle

We used FS to do a post builders clean today and the services that they provide are outstanding. I would not hesitate in recommending this cleaning company to any of my friends or family! Top notch

# Complete HOME STAGING Cleaning

**A recently new venture to us is our Home staging section of the business.**

**Did you know that more homes sell quicker when they are already furnished.**

## Before

## After

**You can check out all our home staging developments on our Instagram page. Just look for fscompleteclean**

# Complete Cleaning

## About the staff

Here at FS Complete Cleaning we have a large workforce with nearly 30 members of staff undertaking various roles from housekeeper to director and everything in between. Our employees are all enthusiastic about cleaning and love doing their best in everything they do. When we first opened we had only a handful of staff and I am happy to say that some of them are still with us today. We like to employ people that would treat your home as if it was their own. We are happy to work with anyone as long as they take pride in what they do and are happy to learn along the way.

## The Way We Work

We have a minimum call out time of 2 hours and because of this we like to send our teams out in groups of 2, occasionally this may become a 3 or more depending on the size and type of job you require from us. This is for your convenience rather than ours because by sending more people it means that we are in your property for a shorter period of time due to the time getting split between the staff rather than you having to pay more for more staff.

If you become a regular client we try to send the same team, or at least one of them, every time we attend. This is so you can get to know your team and they can get to know you and your property.

The reason for this is because once they get to know you and what your requirements are then they can get into a pattern. Should you stick with us, once the teams are in the routine they will be able to slowly increase what it is that they can get done in the same time slot as they will be able to keep on top of the worst areas.

Our staff bring all products and equipment with them (unless otherwise specified) and the only thing we ask you to provide is electricity and hot water (or a kettle please).
